

Upside-down House

19-07-2018

A special house is built in Shanghai. It is upside down. The house **features** a bathroom, bedrooms, a kitchen and a living area.

Everything is upside down in the house, even the furniture and the **cutlery**. Many people are shocked. They **lose** their **balance**.

One tourist likes the bathroom the most. There is a toilet in the bathroom. The tourist thinks that the water can fall out of the toilet.

The house is built by people from Poland. It took five months to build the house.

1. Draw a line from the word to its meaning.

Features

cannot move very well

Cutlery

has

Lose balance

wrong way up

Upside down

knives, forks and spoons
